"It was interesting to share my views with the students. I was quite impressed with the quality of the questions. The questions displayed a good understanding of the automobile business and TATA motors activities. Best wishes to all the students for their future careers."

**Prakash Telang, MD
Tata Motors, Ribandar
Talks Aug '11.**

With its slogan "Next Marking" in management, GIM is making large strides to improve its current ranking from amongst the 20 best in the country to the ten best in the country with a global ranking.

This is the goal set by the Chairman Mr. R. Gopalkrishnan, Former Director, Tata Sons and Ex Vice Chairman, HUL, together with a Board of action oriented professionals, industrialists and academicians. The GIM society has no investors and all surpluses are ploughed back to the Institute to achieve the targets set by the Board.

240 students are selected for the full time PGDM programme, based entirely on merit according to the marks obtained in the XAT exam and interview. The evaluation is very structured and transparent. Diversity in the class is ensured by attracting candidates from all over the country and care is taken to have an effective mix of graduating disciplines.

Campus Life

GIM's sprawling new 50 acre campus at Sanquelim (Poriem) is located in an eco friendly environment in the foot hills of the Sahyadris and the atmosphere is serene and pristine. The architecture is modern and conforms to the topography of the land. Conforming to the eco friendly policies of reduce, reuse and recycle, water is heated by solar heaters, used water is cleaned in a sewage treatment facility and stored in the water recovery pond with special plants and fish. The academic building houses 14 air conditioned classrooms of which 8 are equipped with graded seating arrangement for 60 students each and 6 with flexible seating for 30. All the classrooms are provided with LCD projectors and four classrooms have video conferencing installations, including one which has interactive distant learning facility. The imposing library building is air conditioned and operates 24x7 without the need for librarians. Students can indent books for themselves with their RFID cards. The course is fully residential with a lot of learning taking place in impromptu informal interaction with faculty and groups. Accommodation on twin sharing basis is made available for the 1st year students and single room accommodation is provided to the 2nd year students. All hostels are equipped with washing and drying machines and facilities to complete the laundry by the students themselves. Each hostel has its own Common room.

“My two years at Goa Institute of Management have been really challenging and satisfying at the same time. I learnt to benchmark myself with the ‘best in class’ and progress towards ‘NEXT MARK’. I experienced the transformation in me”

Suraj Nair PGP 2010-12

Every evening people in the campus enjoy the picturesque Sahyadris. The institute firmly believes in a healthy mind in a healthy body and sports facilities include an outdoor football field and a jogging track, basketball, volley ball and tennis court. Areas are earmarked for badminton courts, table tennis, carrom and a gymnasium too.

Academic Learning

We believe that Management education needs to be both current & relevant. We continuously review our offerings so as to ensure this.

The curriculum is upgraded by the faculty at a retreat every year. The first year has compulsory courses in Economics, Finance, Organisational Behaviour & Human Resource Management, Production and Operation Management and Marketing. The second year has a wide range of electives in these areas. A recent introduction is the Give Goa Project which lasts through the first year and involves all students; group of six students taking up a project of social nature with a local NGO so as to contribute in a quantifiable manner to a social cause in the area. The project has been received with much enthusiasm by the first year students.

An example of our extra curricular talent is the GIM choir. The choir has won laurels wherever it has performed and has shown brilliance in international music exams.

The third language classes are optional but permit budding global managers to qualify for various levels, of the recognised foreign language institutes in French, German, Spanish and Portuguese.

The Institute has student exchange programmes with business schools in Portugal, Antwerp and Ingolstadt as also several faculty exchange programmes with other schools in the West.
