

Goa Institute of Management Healthcare Management Programme

Placement Report 2015

Message from the Placement Committee - HCM:

It gives us immense pleasure to announce that the **2013-15** batch of the healthcare management programme (PGDM-HCM) of GIM, which is the pioneer batch of the programme has successfully convocated from institute **bagging 100% final placement**. We are glad to present a report on final placement, which has been prepared on the basis of confirmed offers in hand of the students. Along with this we are also happy to share the report of summer internship of 2014-16 batch students, which is again 100%.

The placement activity which was initiated in December 2014 soon received momentum as we received interests from potential recruiting organizations across the country and healthcare spectrum. Although throughout the programme we received numerous appreciations from many senior industry professionals who interacted with us in form of guest lectures and talks to students, this was the first ever opportunity for industry to assess HCM students from job perspectives. We are happy that the programme could deliver up to the expectation of the industry and all our students have been offered attractive opportunities in healthcare sector.

We would like to thank all recruiters from the bottom of our heart to repose their trust on us and are sure that they will be more than satisfied with performance of our students. We are also thankful to the alumni, faculties and visiting faculties who supported us in placements.
